

**TWAF-71630 Torque Wrench 30 in/lb- Data Sheet**

Designed for "F" Connectors, these wrenches help prevent over tightening. An audible click tells you the connection has been properly achieved.

These wrenches all have angle heads, sized for 7/16" F connectors and are designed with an ergonomic cushioned handle for user comfort and protection.

Note that these wrenches work in tightening mode only. Torque wrenches are 6 1/2" long. - is a full size open end wrench that behaves like a traditional open end wrench.

| LENGTH | HEAD SIZE | HEAD TYPE             | TORQUE    | WEIGHT |
|--------|-----------|-----------------------|-----------|--------|
| 6 1/2" | 7/16"     | Full Size<br>Open End | 30 in/lbs | 5.0 oz |
