Features

Our new gloves are made from premium materials and are designed to offer an optimal combination of dexterity, comfort and protection. All of our new gloves include the following features:

- State-of-the-art moisture management fabric that wicks away sweat to keep hands dry
- High-density foam padding to absorb impact and vibration
- Double-stitched wear pads on the fingers and palms for durability
- Reinforced pull tabs make it easier to put on the gloves while prolonging seam life
- Stretch panels for increased dexterity and comfort
- Molded hook and loop strap adjusts comfortably to the wrists and keeps debris out

Additional features of each style are highlighted below. All three styles are offered in Large and Extra Large sizes:

Handyman - the perfect pair of gloves for work and outdoor activities

- Reinforced index/thumb web minimizes friction caused by gripping and pulling
- Spandex back with padded knuckles and fingers protects against bumps and knocks
- 1-1/2" woven elastic cuff with a hook and loop strap keeps the cuff secure
- Lycra side panels on each finger provide extra flexibility

Tradesman – form-fitting, high dexterity work gloves ideally suited for the job site

- Spandex back has corrugated padded knuckles and fingers for extra protection and flexibility
- Terry cloth thumb with flex-weave insert for brow wiping
- Full neoprene cuff with extended underside for added protection and a textured tab for pulling on the gloves

Workman Pro – contractor grade work gloves with a unique combination of maximum protection and dexterity

- Full grain leather palm for a natural fit and extra comfort
- Double-stitched padding on the palm for extra shock and vibration absorption
- Foam-filled accordion knuckles and fingers for extra padding and flexibility
- Terry cloth thumb with flex-weave insert for brow wiping
- Full neoprene cuff with extended underside for added protection and a textured tab for pulling on the gloves
